

## **Grace Killelay - Early Career Teacher Reception and KS1**

My ambition to become a primary school teacher started when I was sixteen during a work experience visit at Hunsley Primary. To make this possible, I started studying Childcare and Education at Hull College, and soon after completed my degree in Early Childhood Studies at Hull University.

I joined the Trust in 2021 to complete my Initial Teacher Training through Yorkshire Wolds Teacher Training. Hunsley Primary was my main placement and I was very lucky to be training in such a happy, welcoming school. The support I was given during my training year was fantastic, preparing me in all aspects of teaching.

I have been fortunate enough to carry on my teaching journey at Hunsley Primary, working in Reception and across KS1 as a class teacher. My transition from a trainee teacher to an ECT has been fantastic and that is down to the support from the staff at Hunsley and across the trust.

I am thrilled to be working at Hunsley Primary and I cannot wait to hear more funny stories from the amazing children I teach.
