

Staying Safe Online

Hunsley Primary has its own guidance to help 4 - 7 year olds stay safe online at school and at home. We call it 'Safe APPS'.

Ask - Always ask before you use an electronic device and use it where an adult is nearby.

Personal Information - This is private and shouldn't be shared with people you don't know. Your name, age, address, school, phone number and places you like to go.

Photos - These are for your family and friends. Never send a photo of yourself without checking with a grown-up first.

Say something - If something doesn't seem right...don't switch off; shout out! Let the grown-up decide what to do.
