

Step-by-Step Guide to Active Learn: Bug Club

- 1) Log in to the website, using the Username, Password and School Code we have given you

- 2) You will then see your homescreen with your child's name and their own personalised folders – click on My Stuff to access the books which have been allocated specifically to them

- 3) You will see the books, displayed as 'New' or 'Open' – once you click on a book, you can read it online. It looks just like the book in print

- 4) You'll also spot Bug symbols on certain pages which link to fun activities to complete with your child. Please complete the activities on each page in the books to help support your child's reading comprehension. When your child has completed these activities the Bug's eyes will close! In the Phonics books, there are letters to sound out and blend too

You can click on the Read to me button to help your child listen to the story – or encourage them to sound out the words with you and then listen to see whether they have got it right.

As ever, we are here to advise, so if you are struggling to get online, access a computer or get to grips with phonics, please do just ask and we will aim to help.
