Louise Hitchin – Hunsley Primary Administrator

I have worked in school administration since 2003. Prior to joining the Hunsley team, I was employed at South Hunsley School and Sixth Form College and believe that the Trust's values have supported me in my daily provision of Administration duties at Hunsley Primary.

I consider myself fortunate to have the opportunity to work at Hunsley Primary and be part of such an inclusive team and have enjoyed working here since the school first opened its doors in September 2015. It is an enriching experience to be part of this flagship free school.

My role brings me into contact with families, colleagues, agencies, other schools and a whole host of interested professionals: we work in conjunction with the Trust and the other schools that form part of it to help the children become the very best they can be.

It is a diverse role ranging from marketing and data, menus and school visits, to medicines and first aid! I am often the key first point of contact at the school, supporting the children, parents/carers and staff alike. I have been given opportunities by the school and the trust to attend training that has expanded my knowledge and have been supported fully in my role.
